A Comprehensive Approach

Guiding Principles

- support for emotional well-being and prevention of suicide campus-wide responsibility
- efforts that promote emotional health, suicide prevention and substance misuse prevention must have support from leaders on campus

How Your Campus Can Partner with Us?

- Provide evidence-based training programs in collaboration with and for students and campus personnel to respond effectively to students with mental and behavioral health problems, such as depression and substance abuse, which can lead to suicide and suicide attempts.
- Train a student peer network to promote mental health, identify students in distress and refer to appropriate local resources.
- Create a networking infrastructure to link the institution with health care providers from the broader community who can treat mental and behavioral health problems.
- Create local college-based hotlines and/or promote linkage to the Crisis Text Line (Text 741-741) and the National Suicide Prevention Lifeline, 1-800-273-TALK.
