

Erik Messamore, MD, Ph.D. (a Psychiatrist and Pharmacologist) and Danelle Hupp, Ph.D. (a Clinical Psychologist) would like to invite you to join a psychosis education event! **We encourage you to forward this email to anyone who might find this event of interest.**

## Purpose

The purpose of the psychosis education event is to explain psychosis and answer questions about this surprisingly common condition.

With at least one out of every twenty people likely to have at least one psychotic experience in their lifetime ([McGrath, et al., 2015](#)), Dr. Erik Messamore calls psychosis ‘the most common condition that nobody talks about.’

## Time, date, duration

The event will take place from 3:30 to 5:00 PM, eastern daylight time (GMT -4), on Thursday, November 3<sup>rd</sup>. Psychosis education events will be held monthly.

## Format

Dr. Erik Messamore will open the event with a 20-minute lecture in which he will describe what psychosis is and explain some of the leading theories about how it happens.

The rest of the time (approximately 70 minutes) will be for audience questions. Dr. Hupp and Dr. Messamore will answer any psychosis-related questions that come up.

## We can't offer personalized treatment advice

Although we will be happy to answer any question about psychosis, we won't be able to offer any person-specific diagnostic opinions or treatment recommendations.

We will answer general information questions like:

- How is psychosis diagnosed?
- What are treatment options for psychosis?

We can't answer personalized questions like:

- Is my child experiencing psychosis?
- Should I take medication?

## This is not a therapy or treatment group

This is a forum to discuss psychosis, provide general information, and answer general information questions. This is not a therapy or treatment group.

Your attendance or participation in this group does not establish a doctor-patient relationship with Dr. Messamore or Dr. Hupp.

## We can't guarantee privacy

Remember that this is a public event in the Zoom online meeting format.

Zoom will ask for your name and will show your name to others in the meeting. You can use a fake name if you don't want others to know your real name.

For questions about this event, or to register for future psychosis education events, please email [info@askapsychiatrist.info](mailto:info@askapsychiatrist.info).

## Zoom login

Erik Messamore is inviting you to a scheduled Zoom meeting.
