We are anticipating providing a variety of information and were hoping that your organization would be willing to provide some resources to promote your organization's initiatives relevant to college campuses. The Ohio Program for Campus Safety and Mental Health conference generally attracts 150 to 200 campus-community stakeholders throughout the state and beyond. If you are unable to attend, we would also like to extend the opportunity for resources to be provided at an unattended table. If you are interested, please register your organization [here](#)! Additional details about the conference may be found on our [website](#).
