CLINICAL HIGH RISK FOR PSYCHOSIS: CONSIDERATIONS FOR COLLEGES AND UNIVERSITIES

In recent years, there has been increasing interest and attention paid to defining high risk for psychosis, identifying individuals at high risk, and intervening as early as possible. Individuals enrolled in college tend to fall within the typical age range for this risk category. With the goal of helping to prevent and/or avoid more severe experiences of psychotic disorders, this presentation will focus on the system of care approach and the role of colleges and universities.

TIME

March 4th, 2025

12:00pm-1:00pm EST
